Care: Who will be the primary person responsible for the pet's care, grooming, feeding and the purchase of the vegetables, food and hay needed? _____. ***The primary caregiver must be an adult, 18 year of age or above.***

If this rabbit will be around a child, are you (the parent or guardian), willing to supervise the playtime with bunny and to train each child in the proper handling practices? Y / N
If the rabbit is primarily the pet for your child, are you, the parent/guardian willing to take over the responsibilities of the rabbit's care if the child loses interest or can no longer care for the rabbit? Y / N

We adopt to indoor homes only. Are you aware of the **dangers of keeping bunny outside & the benefits of indoor housing?** Y/N. Do you agree to keep you bunny housed indoors at all times? Y / N

Housing: How do you plan to house your rabbit? The rabbit needs plenty of space to live and play. We recommend the x-pen (aka 8 panel exercise pen) or NIC cube condo enclosures.

A pen enclosure Inside cage/special room. What size is this cage/room? _____

Free in house: Other? _____

Need information on housing arrangements? Y / N

Is the rabbit area you have now enclosed and safe from both airborne and ground predators? Y/N

Do you need information on where to get enclosures, condos, or precision pen housing? Y/N

Health: Rabbit Haven adoptions come with a first Free medical exam.

If the house rabbit receives proper care, food and loving support and lives indoors, safe from the elements and predators, they can live 12-15 years.

Rabbits need to be seen for initial vet exam. They will need to be spayed or neutered, if not already altered. After that, they should have a well bunny exam once a year. They may also become sick or have an accident and need to see a special exotics vet.

1. Are you willing/able to provide this care? Y/N

2. Do you need info on how to spot any signs and symptoms of rabbit disease? Y / N

3. Need info on: GI stasis? Y/N Myxomatosis? Y/N URI? Y/N How to select a good rabbit vet? Y/N

The importance of spay and neuter? Y/N Other needs? : _____

Did you know that Rabbits can obtain Pet insurance? VIP is one policy some of our clients obtain.

Spay neuter: -Female rabbits have an extremely high risk of cervical & uterine cancer if not spayed. They can also reproduce every month as early as 3.5 months every 28 days. They can become pregnant

minutes after they give birth and have up to 12 in a litter. Will you have your female spayed at the recommended time? Y/N Need info re spay? Y/N

-Male rabbits have health and behavior issues such as spraying, fighting, excessive digging & general frustration, chewing when they are not neutered and they are more likely to get testicular cancer if unneutered, Will you neuter your male rabbit at the recommended time? Y / N
Do you need info about this procedure? Y/N

Myxomatosis is a disease transmitted by fleas or mosquitoes. Rabbits left outside run the highest risk of exposure. There is no vaccine against this deadly disease. Myxomatosis is 98% fatal. Will you protect your rabbit from Myxomatosis? Y/ N

Litter box supply: Rabbits need to use a non-toxic paper or plant based litter ONLY – no clay or clumping litters, no corn cob litter. (Health concerns) Various types of paper-based litters are available. Need info? Y/N

Care of the Rabbit: Rabbits are sensitive social beings. When you adopt you are adding a family member. Your adoption is meant to be permanent for the rest of the rabbit's life. Domestic house rabbits live indoors, protected from the elements and are treated as part of the family. The rabbit has special social, nutritional and medical needs. They need annual visits to the vet, good quality and high fiber timothy pellets for adults and high quality alfalfa pellets for little ones, less than 8 months of age. They also need plentiful hay, fresh water and 1-2 cups of dark leafy green vegetables every day. The rabbit requires grooming, love and attention, fun toys and activities to stimulate them, the proper litter, and a clean environment. Will you provide for these needs? Y / N.

Social needs: The rabbit is a highly social being and needs human interaction on a regular basis and appropriate housing at least 6 six times the size of the rabbit. Do you agree to house your rabbit companion with you/the family and not set it apart in a place removed from the rest of the family? This means they are not housed out in a garage, in a distant laundry room, or put in a cage back in a bedroom. **Is this arrangement ok with you? Y / N**
What are your plans to integrate the rabbit into your family? (Introductions, set up, interaction and care follow up). Our staff will be happy to talk with you to give you suggestions. _____

Children and rabbits: Many times parents want to adopt a bunny for a child to help the child learn how to care for an animal companion or just because the child wants one. Many children and their supportive families set up a great environment for the rabbit and it is a wonderful experience. However, often young children lose interest and do not want to care for the rabbit after a few months.

Permanent adopters are the adults: Are you willing to take on parenting and care for the bunny when/if your child loses interest? Y/N
Rabbits do not always like to be picked up or carried by children or held for long periods - Is this ok with you? Y / N

Allergies: Does anyone in your household have **allergies** to rabbits or to other animals? Y /N
Do any of your family members have an allergy to hay or grass? Y/ N

Students: (If you are not a student, you do not need to complete this section)

It is important to have a clear plan when you add a rabbit to your life. Your new rabbits may be with you for 10 years or more. Does your current housing situation permit rabbits? Y / N
If you share housing with others, have you checked with all of them to make sure it is okay with them to have a rabbit? Do your roommates have other pets: if so what kind of pets? (List) _____

What are your plans when school ends? Grad. school, employment, or when you move to another area?
_____. Are you sure the rabbit will fit into your new life after your current school
situation ends? Y/N

What if you have to return home to live with parents? Have you asked your parents if the rabbit will be
welcome there? Y/N

If you have to move, do you agree to secure housing that will also allow your rabbit to move with you? Y/N
Students sometimes live on a lower income given costs of school. Can you afford to care for your rabbit's
basic needs and medical care? Y/N

Do you have the time to clean up after the bunny, interact with your rabbit, change the litter box, and be
sure the bunny has fresh greens, water and fresh hay daily? Y/N

All adopters – Rabbit Haven Permanent Adoption: When adopting, you are agreeing that you intend for
the adoption of your rabbit to be permanent. You are agreeing that you will not take your adopted rabbit to
an animal shelter or give your adopted rabbit away or sell the rabbit. You agree to contact the Rabbit
Haven Director if you are having any concerns about your adopted rabbit so we can work with you to
resolve any issues you may have. Do you agree to these terms? Y/ N

The Rabbit Haven is available to offer you an initial consultation before and during your adoption. We are
available for additional support after you adopt. We can provide training you may desire: care, housing,
nutrition, grooming, social needs, etc.

Counseling support: Rabbit Haven counselors work with you during your adoption. Then they will contact
you a few days following your adoption, then at 30, 60 & 90 days to see how your newly adopted rabbit is
getting along and to answer any questions you may have. You may contact us at any time.

Director@therabbithaven.org. 831 600-7479

Nail Trims/demonstration of home health check at shows: The Rabbit Haven provides bunny nail
trims and a demonstration of a home health check at all of our adoption shows. Donations are welcome to
assist us with rescuing more bunnies. Check our web site for adoption show dates and locations:
www.therabbithaven.org. Come and visit. We always enjoy seeing our new rabbit family members.

Our education services and support systems are designed to help you through each step of your adoption
process to make your new adoption experience enjoyable. We want you to fully appreciate and enjoy your
new rabbit family member. We will be pleased to give you information or answer your questions during
any phase of your rabbit adoption process.

Do you have any other questions that we did not cover on this questionnaire? Y/N If so, please list your
other questions below - then when the counselor reviewing your application contacts you, they will be
prepared to answer your questions.

Thank you for your interest in adopting a loving rabbit. Thank you for completing your questionnaire. Your
application will be reviewed as soon as it is received and we will answer any questions you have.

With each adoption you will receive a free first medical exam, valuable discount coupons to help you
purchase needed supplies, Rabbit Haven counseling assistance, complete rabbit care education along with
education reference materials packet to take home. Plus, your wonderful new family addition-Your rabbit!
